PROJECT INFORMATION		
ACRONYME & TITLE: IMINWE Innovative mechanisms of industrial enterprises development in the process of integration to the world economy		

SUMMARY*:

The Department of Management, National Technical University of Ukraine "Kyiv Polytechnic Institute" is seeking partners to join the H2020 call "Innovative mechanisms of industrial enterprises development in the process of integration to the world economy". We are seeking a range of academic and industrial partners to offer the working-out of innovative mechanisms of industrial enterprises development in the process of integration to the world economy.

The current state of European economy, in particular, the situation with its industrial sector, sets the task of improving the industrial enterprises activities, increasing operational efficiency, profitability, innovation activity and integration into the world economy. Consequently, there is a need both theoretical and practical study of innovative mechanisms of industrial enterprises development in the process of integration to the world economy. Scientific project includes the development of scientific and methodological provisions for studying the essence of innovative mechanisms in ensuring the innovative development of industrial enterprises in the integration of national economies to the world economic environment, the study of influence of the world market for development of industrial enterprises, the formation of methodological tools for effective implementation of innovative mechanisms in practice of industrial enterprises activities to improve their international competitiveness.
